HCSM Medical Concierge Services

HCSM Medical Concierge Services are included in this offering.

This service provides Level 1 - Member Support for all items relating to Select Silver 2750 & Lifetime Plus+. This includes but is not limited to; support with member medical needs, member claims support, coordination of benefits, pre- authorization support, administration, & support with the release of medical records when authorized to do so.

Why is this service provided?

A key benefit of being a member of the HCSM Membership - Select Silver 2750 is open access of care without network restrictions. Members of Select Silver 2750 identify as a "Self-Pay Patient" of a not-for-profit HCSM. While this creates a great opportunity for our members to gain access to care at medical facilities potentially restricted for use by the networks of other insurance policies, it can at times create some additional steps and challenges as referenced below.

It is important to understand HCSM's are not insurance, nor are they insurance companies. Because of this, a not-for-profit HCSM in general does not operate as efficiently as many "for profit" insurance companies operate. Some medical facilities also do not have the ability to file medical needs to an HCSM as efficiently as they can with an in-network insurance carrier. And although rare, some medical facilities will refuse to file claims on behalf of a member of an HCSM. For these reasons, members are at times required to take extra steps in order to facilitate proper HCSM payment of an eligible medical. HCSM Medical Concierge Services helps relieve you of these extra items when they arise by going to work on your behalf where possible.

Who provides this service?

USA Health Plans has over 7 years of experience providing HCSM concierge services to our members. Many times, our members can sign a HIPPA Authorization form on a case-by-case basis allowing for us to go to work on their behalf. In general, this gives us the ability to work directly with the facility and the HCSM to help facilitate the items needed to resolve payment for eligible medical needs. This provides you, the member, with 1 point of contact for most of your medical needs instead of getting bounced around and having to do the work yourself. If the member also has additional insurance coverages offered through USA health Plans, we will help coordinate those benefits with the HCSM as well.

Why consider HCSM?

HCSM's have provided significant benefit to millions of Americans over the last 3 decades and continue to be a viable alternative for the unforeseeable future. Our platform gives you the ability to not only share in the savings HCSM can offer you and your household, but the opportunity to share directly in another households' medical needs. The core function of an HCSM is to deposit all members contributions into an escrow account from which all eligible medical needs are shared directly with other members.
