Includes HCSM Medical Concierge

HCSM Medical Concierge

Select Silver 2750 provides members open access of care without network restrictions.

Open access creates a tremendous benefit for members to gain access to medical facilities potentially restricted by networks of other insurance plans.

While receiving care without network restrictions can be a tremendous benefit, it does at times come with its own set of challenges.

- Some medical facilities do not have the ability to file medical needs to an HCSM as efficiently as they can with an in-network insurance carrier.
- Medical Facilities at times will rely on the member to file their own pre-authorizations for service and or provide their own medical records to the HCSM when required.
- Although rare, some medical facilities will refuse to file claims on behalf of a member of an HCSM, requiring the member to do all this work themselves to receive payment for service.

HCSM Medical Concierge helps relieve you of this work when these items arise.

USA Health Plans

USA Health Plans has over 7 years of experience providing HCSM concierge services

Many times, our members can sign a HIPPA Authorization form on a case-by-case basis allowing for us to go to work on their behalf. In general, this gives us the ability to work directly with the facility and the HCSM to help facilitate the items needed to resolve payment for eligible medical needs. This provides you, the member, with 1 point of contact for most of your medical needs instead of getting bounced around and having to do the work yourself. We will also help coordinate the benefits of Lifetime Plus+ and any other benefits enrolled through the USA Health Plans Platform.

Be Exempt

Members of a “Recognized” Health Care Sharing Ministry (HCSM) are exempt from the federal mandate to purchase health insurance. Enrollment with a Recognized Health Care Sharing Ministry removes your requirement under the federal healthcare mandate to purchase health insurance.

Why consider HCSM?

HCSM’s have provided significant benefit to millions of Americans over the last 3 decades and continue to be a viable alternative for the unforeseeable future. Our platform gives you the ability to not only share in the savings HCSM can offer you and your household, but the opportunity to share directly in another households’ medical needs. The core function of an HCSM is to deposit all members contributions into an escrow account from which all eligible medical needs are shared directly with other members.
